

Hand Lens Exploration Card Template

Hand Lens Exploration Card

1. What can you see with a hand lens?
2. Use your hand lens to look at the line of numbers below. Start with the large lens. How many numbers can you see through the large lens? Write your answer in your Science notebook. Next to your answer, draw how big the numbers appear in the large lens.

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

3. Now use the small lens to look at the numbers. How many numbers can you see through the small lens? Write your answer in your Science notebook. Next to your answer, draw how big the numbers appear in the small lens.
4. Go around the room and find 5 things to look at. Record your observations in your Science notebook.
